浙江博展卫浴有限公司

ABOUT YUSON

YUSON has been dedicated to the **design, manufacturing and marketing** of **bathroom and kitchen products** since its establishment by a group of energetic and professional people in the year 2009.

After decade of development, together with our constant **investment** in outstanding **manufacturing facilities** for taps and mixers, brass fittings, shower systems and ceramic products, **YUSON** stands for reliable quality bathroom and kitchen products which are appreciated by customers all over the world.

We gain the reputation for our wide ranges of **innovative products, reliable quality, fast and efficient services**, and **professional teamwork** provided to our customers.

We Bring You Value

HISTORY

2009

Shanghai Yuson Industry was founded by Claudia Lee and Calex Liu in Jan, 2009.

Since the establishment, YUSON started from the export business of bath and kitchen products.

2010

Yuson Group Limited was established in 2010 as Shanghai Yuson's offshore finance platform to serve all customers.

First time participated in the ISH exhibition in March 2011.

2011

Ceramic sanitary ware products are the main products for Yuson, so Yuson strategically invested in ceramic production in Chaozhou to ensure stable and reliable production capacity.

2013

First time participated in the The China Import and Export Fair in Canton in October 2013.

2017

Participated professional exhibitions specialized in bath and kitchen products, such as KBC Shanghai, ISH Frankfurt, KBIS USA, MCE Milano etc.

2018

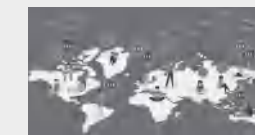

In 2018, Yuson Group Limited Hongkong established as part of Yuson Group works as finance platform.

2020

Participated in KBIS Las Vegas US in Jan 2020 to develop US market.

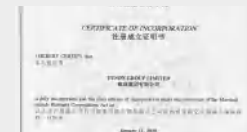

2021

Yuson started to invest in online business and marketing because of the spread of COVID-19 in 2020. E-commerce department was set up and rebuilt the organizational structure in the beginning of 2021.

YUSON's first office located in Shanghai.

Yuson Group Limited founded as part of Yuson Group

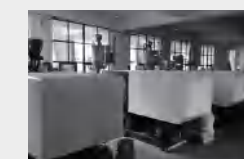

2012

Faucet products are the main products for Yuson, so Yuson strategically invested in faucet production in Taizhou to ensure stable and reliable production capacity.

2014

Second time participated in the The China Import and Export Fair in Canton in Spring 2014.

2015

Yuson strategically invested in plastic production in Ningbo to ensure stable and reliable production capacity.

2019

First time participated in KBC Shanghai, the most professional Kitchen and Bath exhibition in China.

2022

Yuson Kitchen And Bath Technology Limited (Ningbo) established in Cixi, Ningbo.

The international business environment is more and more complex, and various uncertain factors effect the whole world. There are many challenges around us, Yuson will be prepared and accumulated.

Yuson moved to industrial part in Shanghai.

Yuson moved to office building located in center Shanghai.

We Bring You Value

DESIGN

Deconstruction function design aesthetics, extend artistic tension, create art of life. Yuson aims to create a healthy, comfortable and high-quality life, and integrates the sense of design, comfort and feelings of products, constantly seeking better solutions, so that you can have a pure pleasant experience every minute in the bathroom.

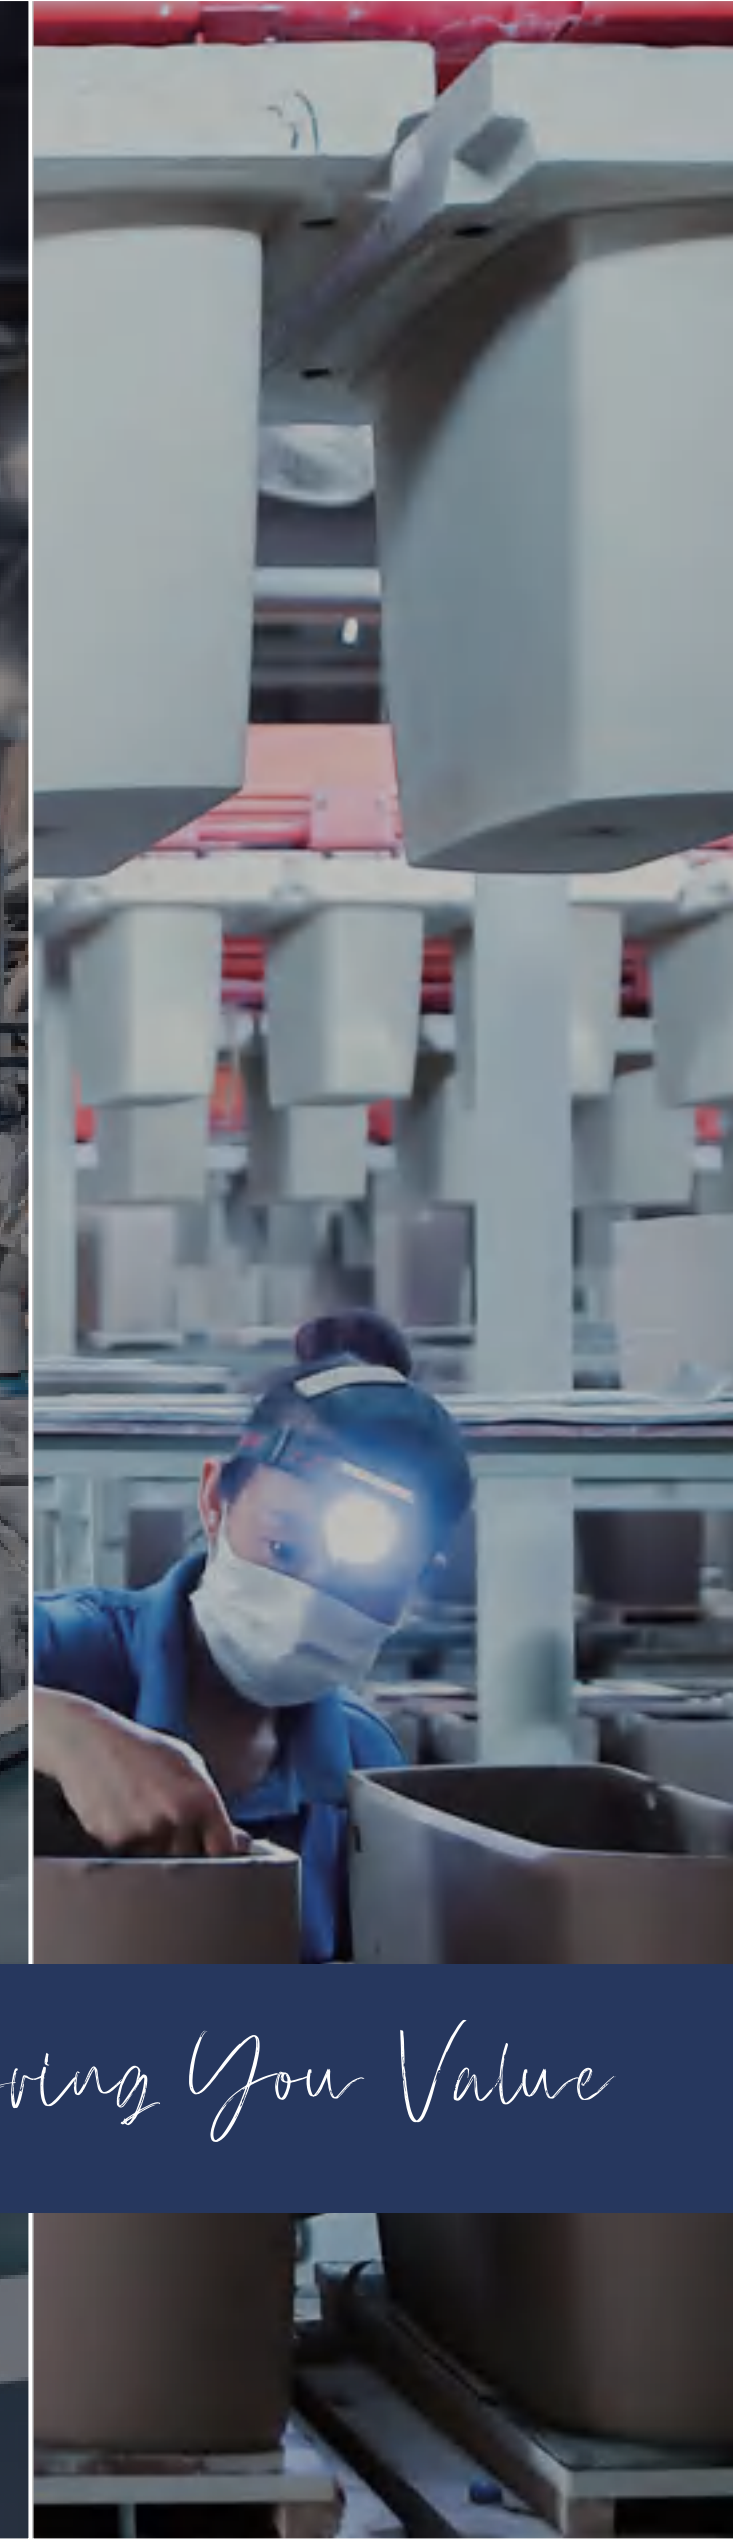

We Bring You Value

TECHNOLOGY

Strong Capability on Production and Technology

The accumulation of experience on R&D and production in over 20 years gives Yuson access to modern technology and craftsmanship in fields of sanitarywares, including ceramic, plastic, metal and intelligent products.

We Bring You Value

We Bring You Value

QUALITY

Yuson is obsessed with quality. From the selection of raw materials, R&D design, technology, production and manufacturing to inspection and packaging; each process is met to the exact specifications; no detail is too small to study, and we strive for excellence in everything that we do so that we can stand behind the quality of every product we make.

VISION & VALUE

Our vision:

To be the **most reliable partner** and supplier in our professional sectors in China by devoting ourselves to design, manufacturing and marketing of innovative and good quality products in competitive prices.

Our Value:

Trust and mutual benefit. Yuson people have earned the reputation of reliable and honest trade partner because of our belief in the trust and mutual benefit with our clients, employees, business partners and suppliers.

We Bring You Value

WHY YUSON?

We have detailed, systematic quality control system, and QC team for inspection, which will guarantee for **stable and controllable quality**.

We can provide professional, considerable services, with our experienced team, considering the point of **view on both sides**.

Responsible and reliable. Responsibility is the most important thing to be considered when we make the decision.

We are good at providing solutions on **products development, cost saving, quality control, and perfect service.**

WE BRING YOU VALUE!

We Bring You Value

NETWORK

Our **main markets** are European countries, North and South America, Africa, Asia and also Australia.

According to different markets requirements, our products are **complying with** EN817, ISO228, EN200, EN14428, EN1112, EN1113, EN997, EN14688, EN3822, GB18145, B55412, BS EN1286, EN31, EN32, W270, EN37, EN38, GB6952-2005 etc.

AROMA, FILTER, SPA, BEAUTY

You will never learn to appreciate the best spa showerheads in the market if you don't explore them.

While there are showerheads that easily massage you, there are other models that make you feel as if you are standing in the cool rain.

Although a new showerhead may sound simple, this is the right time to explore other products that will make your day even better.

The best spa showerheads provided by Yuson can make a huge difference.

Aromatherapy is a relatively widespread practice, thanks to the advantages it draws, pain alleviation, improve sleep quality, reduce stress, boost immunity, fight bacteria. Aromatherapy shower introduce the aroma into shower fixtures, turn your shower space more comfortable, relax your body and mind.

If you reside in a place with hard water, then you know how it can ruin your shower doors and tiles. Thus, is because hard water deposits are left behind that are tough to clean. If you want a cheaper solution, you should install filtered shower heads. They have cartridges that need replacements that eliminate the buildup of scales.

Extended handle or brush adaptor, massage and rubbing back, relieve pressure, soft brush, very convenient to cleaning body. Great for foot, back and knees to soften skin, designed to help people to clean and massage body.

INGREDIENT INSTRUCTION

PP COTTON

Filter the colloidal impurities, mud, rust, insect eggs, organic pollutants, etc
Replacement time: 3 to 6 months, depending on the water quality

ALKALINE CERAMIC BALLS

adjust water pH, make water alkaline

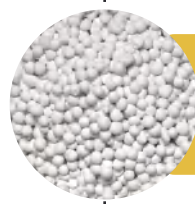

KDF 55

KDF Process Media help control microorganisms by creating an environment that's deadly to some microorganisms and that interferes with the ability of many other microorganisms to function

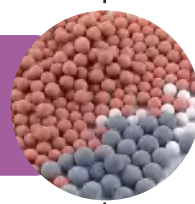

CALCIUM SULFITE BALLS

Remove residual chlorine;Including chemical sexual residual chlorine and free residual chlorine ClO - (hypochlorous acid ions), HOCl (hypochlorous acid), Cl2 (chlorine), etc. Making the chlorine in the tap water become into harmless elements for human body. Adsorption impurities in the water.

BIOCERA CERAMIC BALLS

inhibit the growth of bacteria

NATURAL MINERALIZED BALLS

increase the mineral from the natural mineralized balls which are needed by human body

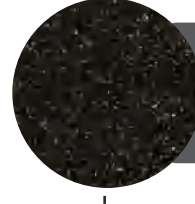

VITAMIN C

Contains massive vitamin C, once water came in, it will give massive vitamin C. Obviously Removing chlorine.

ACTIVATED CARBON

effectively removes 97% of unwanted Class I particles, such as Chlorine, bad tastes, odors, and VOCs
Replacement time: 4-8 month, depending on the water quality

PURIFY THE WATER

FILTERED SHOWER

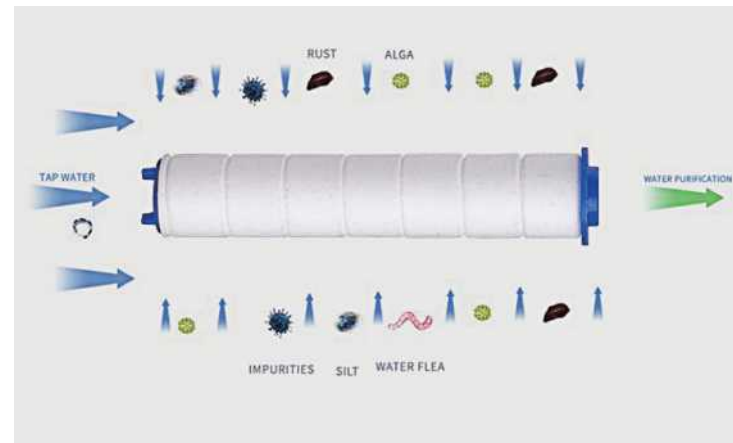

SPECIFICATION OF FILTERS

PP Cotton shower head cartridge filter

Materials: polyester fiber (PP material)
Replacement time: 3 to 6 months, depending on the water quality, normally 10000L.
Function: Filter the colloidal impurities, mud, rust, insect eggs, organic pollutants, etc
Filtration Rate: 5 Micron

Filtration Principle

The PP cotton filter element is made of polypropylene resin as a raw material to make fibers, which are bonded by the fiber itself. The structure of the filter element is a structure with thick outer layer fibers, thin inner layer fibers, loose outer layer, and tight inner layer.

Filtering from outside to inside, the closer to the inner layer of the filter element, the smaller the pore size, the higher the filtration accuracy.

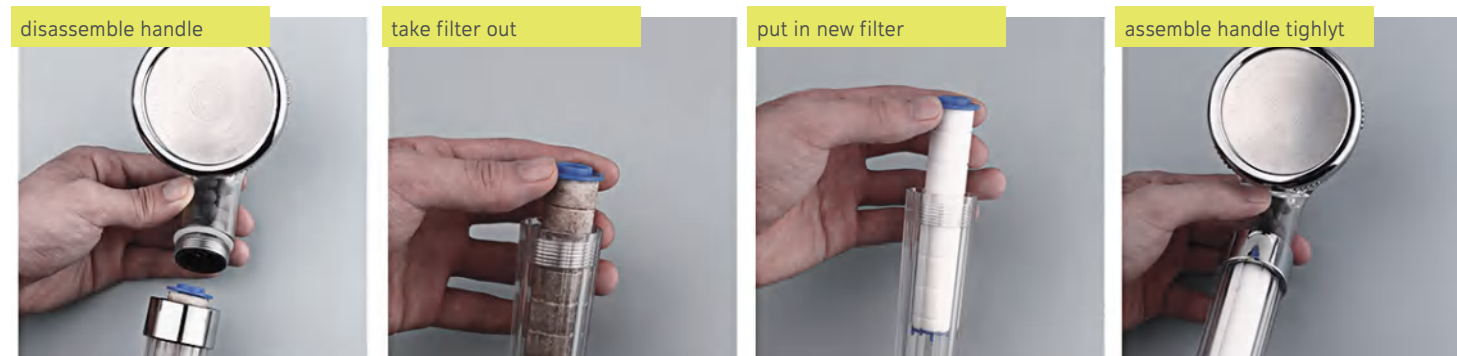

This unique gradient deep filtration has formed a three-dimensional filter residue effect, which can be multi-layered and deep structure, with large dirt holding capacity; PP melt blown filter element is strong, when the filter inlet and outlet pressure difference is 0.4Mpa, the filtration flow rate is large, and the pressure difference is small.

The filter core is not deformed; It integrates surface, deep, coarse and fine filtration;

It has the characteristics of large flow, corrosion resistance, high pressure.

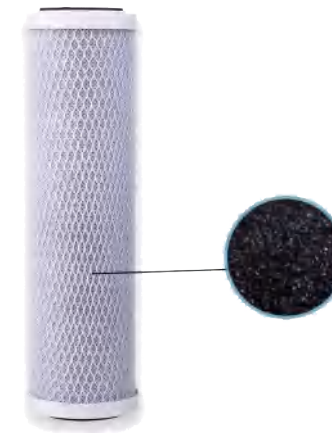

It is used to block large particles such as rust, sand and insect eggs in the water.

Replacement guide

Because the PP cotton filter element belongs to the first-stage filter element when shower, more than 80% of the impurities will be filtered out at this stage, and the more impurities are filtered, the easier the filter element will be blocked. Therefore, the life of the PP cotton filter element is very short. The filter element may need to be replaced for more than two months in areas with poor water quality, and the longest area with better water quality will not exceed six months. So if you buy a shower head with a PP cotton filter element, in order to avoid secondary pollution, it is recommended that you replace the filter core every 3-6 months or so.

[ACF] Activated Carbon Purifier Filter

Name: Compressed Activated Carbon Filter
Replacement time: 4 to 8 months, depending on the water quality
Function: Odors/Residual Chlorine/Organic Matter/Colloids/Heavy Metals

Filtration Principle

The universal carbon water filter is a long-lasting, whole house water filter that effectively removes 97% of unwanted class I particles, such as Chlorine, bad tastes, odors, and VOCs (Volatile Organic Compounds) from your drinking water.

High Quality Materials

Durable and sealed O-ring made of BPA-free silicone, 100% pure coconut shell activated carbon filter, food-grade plastic material, safe and reliable.

Efficiency 5 Micron Filtration

5 micron filtration rating, effectively removes 97% sediment, chlorine, organic chemicals, taste, and odor, etc.

Sintered activated carbon filter media can be made of coal, coconut and shell, efficiency to remove residual chlorine.

SPECIFICATION OF FILTERS

Vitamin C Shower Filter, Skin and Hair Care!

VC capsule

Contains massive vitamin C, 45000mg, which is 800 times of lemons. When water came in, it will give massive vitamin C, high efficiency removing chlorine.

Vitamin C replaceable shower filter capsule with 6 flavors available, lavender, strawberry, rose, lemon, Jasmine. MSDS, SGS Reports available.

Materials: polyester fiber (PP material)

Net weight: 144g

Size: 135x49mm

Replacement time: 2 to 3 months, depends on using frequency.

Function: Removing Chlorine

Features of VC Filter Capsule

*Contains massive vitamin C, 45000mg, made of 800 times of lemons! Once water came in, it will give massive vitamin C to remove chlorine obviously.

*Moisturizing effect gives you a smooth, gentle and moisture skin.

*Reduce stress and fatigue.

*Ingredients: Vitamin C-75%, Gel-11.8%, Water-10%, Essence-3%, Pigment-0.2%;

Replaceable Filter

The filter core inside the shell can be replaced. When the filter core is used up, you only need to replace the filter core. We can save money and energy. One filter element can provide a purification of 6000L water, which can be used for a family of five to take bath for about one month.

Whiten your skin

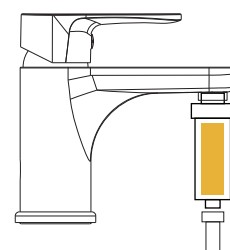

Vitamin C is used in shower filter, because it can resist ultraviolet rays to some extent, improve the condition of dark spots and freckles, so it has whitening effect. Skin care products rich in vitamin C can help skin resist ultraviolet rays in summer, promote skin metabolism, and avoid dark spots and pigment spots. In winter, it can improve the dullness of poor blood circulation in the skin, so that you can also be white and shiny in winter.

Moisturizing

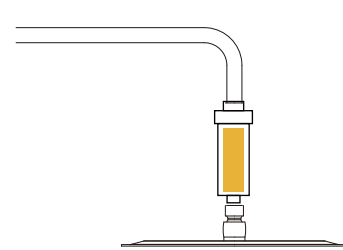

After taking a shower with this filter, your face feels slippery and your skin feels translucent. The skin's moisture content will increase significantly after use.

How To Use?

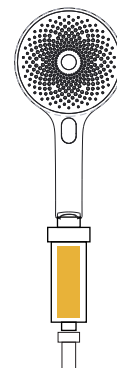

With the universal thread connection, this VC filter capsule can be adapted to faucet, hand held shower, head shower, and any other condition. It is very easy to install it.

adapt to faucet

adapt to head shower

adapt to handshower

Aroma Vitamin C Shower Filter Cartridge

VC filter cartridge

Contains massive vitamin C, 45000mg, which is 800 times of lemons. When water came in, it will give massive vitamin C, high efficiency removing chlorine.

Vitamin C replaceable shower filter capsule with 6 flavors available, lavender, strawberry, rose, lemon, Jasmine. MSDS, SGS Reports available.

Materials: polyester fiber (PP material)

Replacement time: 1 to 2 months, depends on using frequency.

Function: Removing Chlorine.

Flavor available: 6 flavors available, lavender, strawberry, rose, lemon, Jasmine, or other customized flavor;

Service Life

The aroma VC filter cartridge is translucent, so you can see how much of the VC is left inside.

You can see when the filter goes from original color (not see-through) to totally clear and see-through. Don't change the filter until you can see it is totally clear. It is still good and still working when it looks "lightly cloudy" and the inner looks almost completely gone.

The light cloudiness tells you there is still Vitamin C in there. Depends on the type of shower head you have. If it is not a see-through then you would have to take the aroma VC filter cartridge out to see how much VC is left.

This shower filter is designed to typically last 4 to 8 weeks at most with 2 adults showering once a day, or after filtering up to 5000 liters of water.

Chlorine Removing Test

water turns yellow color after putting in reagent

yellow color fades after putting hand in the water, chlorine is absorbed by skin

put reagent into water again

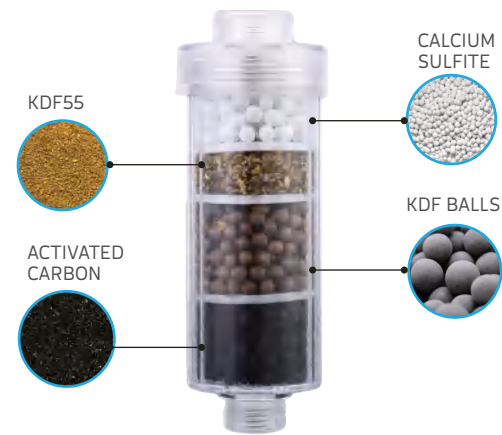

put VC capsule in water, yellow color fades and water turns to clear, visible effect

How Vitamin C works?

It is Neutralization method. Vitamin C is a chemical with reducibility so it can be neutralized with chlorine. Vitamin C can reduce Cl_2 to Cl^- , which is oxidized into oxidizing vitamin C by itself. This reaction must be carried out in water, and the effect is not good in solid state.

SPECIFICATION OF FILTERS

Multi-Stage Replaceable Filter Solutions

4-Stage Dechlorination, Activated Carbon KDF Shower Filter, Multi-Stage Replaceable Chlorine Filter

Materials: polyester fiber (PP material) KDF 55, Calcium Sulfite, Activated Carbon
Replacement time: 6 to 12 months, depends on using frequency.
Function: Remove Chlorine, Heavy Metals, Bacteria, Algae ETC.

Level 1 – Calcium Sulfite Balls (30g) :

Remove residual chlorine; Including chemical residual chlorine and free residual chlorine ClO^- (hypochlorous acid ions), HOCl (hypochlorous acid), Cl_2 (chlorine), etc. Making the chlorine in the water harmless for human body. Adsorption impurities in the water. It is efficient, safe, high temperature resistant.

Level 2 & 3 – KDF 55 Media (50g) :

*They are used in conjunction with activated carbon beads. KDF water filter media extend the life of activated carbon balls while protecting the carbon against fouling by bacterial growth. They will enhance the performance, extend the life, reduce the maintenance and lower the total cost of many available carbon-based systems.

*We can explain redox (oxidation reduction process) like this: KDF Fluid Treatment's unique combination of copper and zinc creates an electro-chemical reaction. During this reaction, electrons are transferred between molecules, and new elements are created. Some harmful contaminants are changed into harmless components. Free chlorine, for instance, is changed into benign, water-soluble chloride, which is then carried harmlessly through the water supply. Similarly, some heavy metals such as copper, lead, mercury and others, react to plate out onto the medium's surface, thus being effectively removed from the water supply.

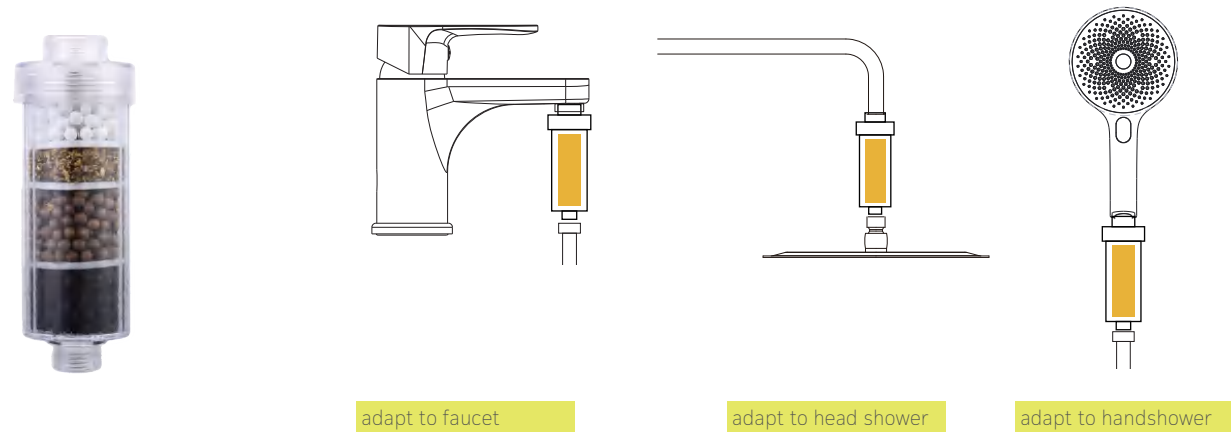

*KDF Process Media help control microorganisms by creating an environment that's deadly to some microorganisms and that interferes with the ability of many other micro-organisms to function. Either way, the use of KDF Process Media results in the total elimination of some contaminants and a great reduction of a wide variety of others.

Level 4 – Activated Carbon Balls (30g) :

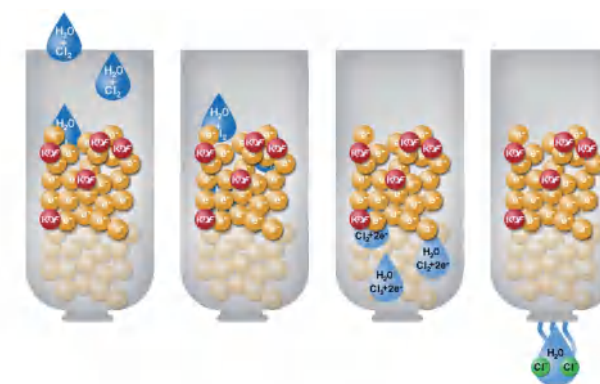

Making activated carbon into a spherical shape can achieve a larger surface area. It's the massive surface area that allows active carbon filters to be very effective in adsorbing (essentially removing) contaminants and other substances. When the water flows through active carbon filters the chemicals stick to the carbon resulting in purer water output. Different from the chemical reaction of kdf, this is a physical adsorption, which can be used in conjunction with kdf to achieve complementary effects.

How To Use?

With the universal thread connection, this VC filter capsule can be adapted to faucet, hand held shower, head shower, and any other condition. It is very easy to install it.
